Women's RPI uses weighted wins and losses for 2011-12 season

Collegiate Basketball News (CBN) welcomes you to this first issue of *The Women's RPI Report* for the 2011-12 season. This is our 16th year of publishing *The Women's RPI Report* and the 21st year that we have published *The RPI Report*. CBN thanks you for subscribing no matter if you have been with us for our 16th year or if this is your 1st. If this is a complimentary issue, we hope that you enjoy it and find the information useful. Fourteen (14) consecutive weekly issues will follow this one each Monday, and there will be 2 issues published after the completion of the post-season tournaments.

Subscribers that have been with us for some time have certainly noticed our revamped web site. We hope that you find the color scheme and layout easier to navigate, more pleasing to the eye, and a bit less crowded. Also, subscriber access to password-protected pages no longer requires flash, meaning that some smartphones that were not previously able to gain access can now log in without problems. Let us know if you have any suggestions or concerns regarding the new web site or if you have any difficulty logging into the system.

Make sure to heed our annual warning: **Do not take the RPI rankings seriously at this time of year.** It is normal to be curious about the rankings in late November and early December, but most of the season is still in front of us and there are still a lot of basketball games to be played. The rankings will become increasingly better as time progresses and more games are played.

There is a big change this season in the way in which the women's RPI is being calculated. Beginning this season, the women's RPI will be calculated exactly as the men's, where home and road wins and losses will be given different weights for teams' winning percentages, which is Factor I in the RPI. Home teams will get 0.6 wins for a home win and 1.4 losses for a home loss, and road teams will get 1.4 wins for a road win and 0.6 losses for a road loss. Neutral wins and losses remain at 1.0 wins for a win and 1.0 losses for a loss. This change can have a substantial impact on teams' RPI rankings when compared to the way it was previously calculated, which used straight wins and losses along with bonus and penalty points for good wins and bad losses and the way teams scheduled their non-conference games. CBN will no longer include either the adjusted RPI or the normal RPI in the *Report* because it is no longer relevant to the women's ratings because they are no longer used.

Four schools are newly eligible for the NCAA tournament this season. Atlantic Sun members Florida Gulf Coast and USC Upstate and Great West member Houston Baptist are now eligible for the NCAA tournament, although the Great West Conference does not have an automatic tournament bid. New MEAC member North Carolina Central is also NCAA-tournament eligible this season.

The list is now down to six schools (Bryant, North Dakota, Presbyterian, South Dakota, Seattle, and SIU-Edwardsville) that snuck into Division I before the moratorium began four years ago. They will all become official Division I members that are eligible for the 2013 NCAA tournament next summer. Nebraska-Omaha is presently reclassifying to Division I, and if all goes as planned they will count in the RPI and play in the Summit League next season.

CBN is making a major supplement available to *Report* subscribers this season beginning in mid-January. At that time we will add complete non-conference RPI numerical and conference data, including the won-loss record breakdown of non-conference games only against teams ranked 1-25, 26-50, 51-100, etc.

Don't forget to order the **CBN Women's Post-Season Wrap-up Package** for last (2010-11) season (only a few copies remain), and also for this 2011-12 season. An order form can be found on our web site at www.rpiratings.com (click on the Subscriber Services link). Our bound volumes contain a **complete set** of *The Women's RPI Report* for the season, complete team-by-team **game results** for the season, analysis of non-conference road games, standings, and much more! Be sure to get your order in for the 2011-12 season **now** because we print only a limited number of copies. It will be mailed in late April. Call us at (317) 255-0749 if you would like additional information.

Keep our CBN On-Site Service presentation in mind for your school or conference to benefit from detailed knowledge of the RPI and non-conference scheduling. Although it focuses on basketball, the principles of the RPI and non-conference scheduling are generally the same from sport to sport, allowing all of your programs in which the RPI is used to benefit. Also, CBN routinely conducts special projects each year for schools and conferences, including data-intensive calculations on tasks such as non-conference scheduling analysis and other related topics. If you would like additional information, please call us at (317) 255-0749.

KEY TO "CHANCES OF BEING AN AT-LARGE NCAA TOURNAMENT SELECTION IN VARIOUS NON-RPI CATEGORIES"

This list appears in the **Report** around the first of February. "OK" denotes the team has, in general, met the standard for the given column, based on past at-large tournament selections. For NDI games, a "69.8% had 0" means that 69.8% of at-large teams played no non-Division I games; "OK means they played no such games. For D-I wins, "69.4% had more wins" means that 69.4% of at-large teams had more wins than the team in question, and so on. The RPI Ranking Bracket column gives the percentage of at-large teams within the ranking bracket that were selected for the tournament.

The Rating Percentage Index has been used since 1984 to help select at-large teams and seed all teams for the women's NCAA basketball tournament. Data herein duplicates the RPI without input from the NCAA. The three RPI components are: Factor I (25 % of the RPI) is the team's Division I (D-I) winning percentage, excluding non-Division I opponents. Factor II (50 %) is the team's opponents' D-I winning percentage (schedule strength) excluding games played against the team in question. Factor III (25 %) is the team's opponents' opponents' D-I winning percentage (the teams' opponents' schedule strength). The Adjusted RPI formula is based upon non-conference scheduling, wins against top 50 teams, and losses to teams ranked below 150.
